Eyes Examined Free.

There is nothing that will help "sick" eyes more than glasses, and there is nothing that will harm them more than glasses that don't suit. Eyes deserve the attention of science's best. They get that best when our Optician is consulted; as in everything else, so in this we have made it our business to give you the best service money can command.

Our only charge is for glasses when they are needed.

Franco-Canadian Line Discussed in London.
London, Sept. 5.—The opinion is expressed here that the attempt to establish a Franco-Canadian line of steamships will fail owing to the hesitancy of French capitalists to respond to the invitation to invest in the venture. Sir Wilfrid Laurier, despite his appearance, is not well, and intends to seek an interval of rest in Switzerland for a week or two, before going to Rome. He may prolong his stay in Europe some weeks.

Martinique Eruptions
Further Particulars Show Loss of Life Is Not Over-Estimated.
Captain of Steamer Savan Corroborates Stories of Outbreak on Wednesday.
And Official Despatches Bear Out Reports of August 30.

Castries, Island of St. Lucia, Sept. 5.—The eruption of Mont Pelée on September 3 was not remarkable, but there was a terrific explosion from the Soufriere on the Island of St. Vincent, September 3. The captain of the steamer Savan, now here, confirming the report cabled to the Associated Press last night that she ran into dense clouds of dust 20 miles southwest of St. Vincent at two in the morning of Wednesday, adds that absolute darkness prevailed soon afterwards, and that he changed his course to due west in order to avoid the ashes which were falling thick. The first officer could not see the captain two feet away, and only knew him by his voice. The steamer Savan further reports that several more valuable plantations were destroyed at the time of the recent outbreak in addition to the township referred to in previous despatches, and adds that the anxiety and detection of surviving populations is general.
Castries, Island of St. Lucia, Sept. 5.—The report brought by the Royal mail steamer Itare, which arrived here yesterday evening from Martinique, of the loss of 2,400 lives through the recent outbreak of Mont Pelée, referred to the deaths since August 30, and not to the loss of life resulting from the reported outbreak of Wednesday, September 3.
Washington, D. C., Sept. 5.—The State department has received the following cablegram from United States Consul Jewell, at Fort de France, dated yesterday, relative to the latest eruptions of Mont Pelée: "Two violent eruptions of Mont Pelée, August 30, destroyed the village of Morne Rouge. Ajapa Baiton, the devastated area includes Parnasse, Morne Carbet, Morne Balak, Bourdon Heights. It is estimated that 1,500 are killed and many injured."

PRESSMEN
AT NANAIMO
Saw all They Could on the Way in Short Time at Disposal.

From Our Own Correspondent.
Nanaimo, Sept. 5.—The British editors, accompanied by many politicians and others, arrived here this evening. It was a very heavy day for the party. They visited Mount Sicker, going through Lenora mines; went by special train and E. & N. to Chemainus, and were taken into the lumber camp there. They were entertained to dinner at Chemainus.
Some being very tired, went on the Yosemite, while others came by special train to Nanaimo, reaching here about six, and were taken down into No. 1 at the head of the coal mines, and informally entertained by the Board of Trade and parliamentary representatives. They left by the Yosemite shortly after eight for Vancouver. A banquet is being tendered on the way over.
STILL FIGHTING.
Small Party of Filipinos Attack a Town.
Manila, Sept. 5.—Rios, a fanatic leader of the irreconcilable natives in the province of Tayabas, Luzon, attacked the town of Lagunao, September 3, at the head of 300 men, and 150 more armed with bolos. The band only killed two women and one girl, and wounded several other persons.
A detachment of the native constabulary arrived unexpectedly at Lagunao, and the Rios men were there. They attacked and routed the bandits and have rounded up 700 men, many of whom are suspected of complicity in the attack in Lagunao. The guilty ones among the 700 men will be picked out and the remainder set at liberty. One of Rios' lieutenants who was captured and killed was a direct descendant of God, and it was beyond the power of man to injure him. The constabulary have also captured one of Rios' mountain strongholds. Detachments of constabulary are now following the main band of outlaws.

MANITOBA COLLEGE.
Will Soon Confer Its First Degree of D. D.
Winnipeg, Sept. 5.—The degree of D. D. will be conferred on Rev. J. A. Carmichael by Manitoba college on the 16th inst. This is the first of this class of honors in the college's history, power having been conferred by the last general assembly. Mr. Carmichael is now home-mission superintendent.

MENTAL SCIENCE.
Founder of the Seattle College to Lecture Here.
Prof. Knox, founder of the Mental Science College at Seattle, and second vice-president of the International Science Association, will deliver a series of three free lectures in the A. O. U. W. social hall, beginning on Sunday, September 7. Prof. Knox visited Victoria last year and organized a large class in mental science.

BALLET DRESSES DESTROYED.
Lighted Cigarette Leaves Troupe Without Stage Attire.
Toronto, Sept. 5.—Fire on the exhibition grounds this morning destroyed a shed containing costumes for the male performers of the Kiroff ballet troupe. The fire started from a lighted cigarette left by one of the performers. Four hundred costumes were burned. The exhibition company had the place insured for \$10,000, but Kiroff says the loss will be \$24,000.

ANOTHER STEAMER.
Harland and Wolff to Build One For White Star Line.
London, Sept. 5.—The White Star line has ordered another steamer to be built by Harland & Wolff, of Belfast, which is to be 20 feet longer and a few feet wider than the same company's steamer Cedric, now the largest liner in the world.

RUMORED SETTLEMENT.
One of the Coal Strikes May Be Called Off.
Charleston, W. Va., Sept. 5.—It is rumored here that the Kanawha and New River strike is to be declared off at once and that the Chesapeake & Ohio railway has ordered all equipment rushed back into the coal fields.
OUT OF JAIL.
Young Man Sentenced to Long Term Set Free.
Vancouver, Sept. 5.—(Special.)—John Burns, the 17-year-old boy who was sentenced to six years in the penitentiary by Magistrate Pittendrigat at Westminster, was liberated today on the application of his counsel, W. J. Bowser, on a writ of habeas corpus.

MILL INSURANCE.
New Schedule in Vancouver With High Rates in Some Instances.
Vancouver, Sept. 5.—The lumber and shingle men have been presented with new schedules of insurance rates by four underwriters. The insurance companies have contended for some time that the rates prevailing here were too low in comparison to the risk. Several prominent companies unable to secure a satisfactory rate have retired from the field. The companies have now joined in charging extra high premiums for faulty construction and for lack of proper methods for avoiding accumulation of refuse and dirt, etc. In some cases this will increase the rates 50 per cent. But the rates will not be raised in well constructed, well-appointed, carefully tended mills where fire risks are reduced to minimum.

The Methodists And Anglicans
Conference at Winnipeg Chooses Officers for the Various Committees.
Church of England Synod Greeted by Presbyterians and Sister Body.

Winnipeg, Man., Sept. 5.—The Methodist conference has got down to work, and a busy session this morning was devoted to committee work. The committees have organized with the following chairman and secretaries:
Committee on Missions—J. J. MacLaren, K. C., chairman, and Rev. W. R. Young, B. A., D. D., secretary.
General Conference Fund and Finance—C. A. Birge, chairman, and Rev. W. J. Ford, secretary.
Course of Study—Rev. C. M. Paisley, D. D., chairman, and Rev. A. Stewart, D. D., secretary.
Statistics and Schedules—Rev. W. H. Langille, chairman, and Rev. G. H. Cornish, D. D., secretary.
Church Union—Rev. W. I. Shaw, D. D., chairman, and Rev. F. Denton, K. C., secretary.
Union Church Relief—Rev. W. C. Henderson, M. A., D. D., chairman.
Deacons' Movement—Rev. F. E. Gorman, D. D., chairman, and H. P. Moore, secretary.
Sociological Questions—Rev. W. W. Andrews, D. D., chairman, and Rev. E. S. Rowett, D. D., secretary.
Superannuation Fund—Rev. A. Langford, D. D., chairman, and Frank Denton, K. C., secretary.
Memorials—Rev. E. B. Ryckman, D. D., chairman, and A. D. Watson, secretary.
Sabbath Observance—Rev. D. Winter, chairman, and Rev. W. H. Harvey, secretary.
Book and Publishing—Abraham Shaw, chairman, and Rev. D. W. Johnson, secretary.
M. A. Itinerary and Transfers—Rev. W. F. Wilson, D. D., chairman, and J. T. Moore, secretary.
Temperance, Prohibition and Moral Reform—Jos. Gibson, chairman, and Rev. G. T. Scott, B. A., secretary.
Systematic Benevolence—Rev. W. Harrison, chairman, and Rev. F. A. August, secretary.
Sustentation Fund—Rev. J. H. White, chairman, and Rev. D. W. Johnson, secretary.
Education—Rev. J. W. Sparling, D. D., chairman; secretary to be elected.
Discipline—Rev. W. I. Shaw, D. D., chairman, and N. W. Howell, K. C., secretary.
Sabbath School and Epworth League—Wm. Johnston, chairman, and Rev. R. J. Elliott, secretary.
State of the Work—Rev. James Hamilton, D. D., chairman, and Rev. D. W. Snider, secretary.
Insurance and Connexional Property—Rev. J. D. J. Mary Matos, chairman, and Thos. Hildard, secretary.
Church and Parsonage Aid—Rev. James Woodsworth, D. D., chairman, and S. J. Hughes, M. A., secretary.
Conferences and Synods—Rev. J. T. Pitcher, chairman, and Rev. J. W. Cooley, secretary.
Judicial Decisions—S. F. Lazler, M. A., chairman, and Rev. John MacLellan, D. D., secretary.
Nomination Committee—Rev. M. L. Pearson, chairman, and E. R. Machume, secretary.
Church Property—A. J. Donly, chairman, and S. E. Clement, B. A., secretary.

Civil Rights and Privileges—Rev. J. F. Gorman, D. D., chairman, and Rev. Levi Curtis, M. A., secretary.
Reception of Fraternal Delegates—Rev. Leonard Gatz, D. D., chairman, and W. D. Pettigrew, secretary.
The newly elected secretary, Rev. G. Steele, nominated as his assistant, Rev. T. A. Moore, Messrs. R. W. Clarke and M. E. Broughton.

Montreal, Sept. 5.—At today's session of the General Synod of the Church of England in Canada, delegations were received from the Protestant Episcopal church of the United States and the Presbyterian church of Canada. The delegations conveyed the fraternal greetings of those bodies to the members of the church of England, and were suitably acknowledged.
The first meeting of the new missionary society of the Church of England in Canada, which was formed yesterday, was held this afternoon. Archbishop Davidson presided. A number of speeches on mission work were delivered, and during the course of the proceedings, Hon. Sam Blake of Toronto announced that he would give \$1,000 to place a bishop in the diocese of Keewatin.

FOR BIG SUMS.
Chicago, Sept. 5.—A special grand jury today returned indictments against Luke Wheeler, Captain Edward Williams, manager of the Masonic Temple, James Hoy and John K. Healy, Jr., on charges of conspiracy to defraud the county out of hundreds of thousands of dollars of taxes.

REAL TRAGEDY.
Jilted Actress Shoots Faithless One on the Stage.
London, Sept. 5.—A despatch to the Daily Chronicle from Vienna gives details of the tragic death on Wednesday last of an Austrian actor and actress at Sammer-Vor, Transylvania, Hungary, as follows: Julia Paky and Julius Bardos had been engaged, but the latter had broken off the engagement. The two were acting the part of lovers in a performance during which Julia was supposed to fire at Bardos. She charged her pistol with bullets and shot him dead. The curtain was lowered immediately, but the first persons who arrived on the stage found that Julia had committed suicide by opening her veins.

Coming To Coast
Leader of Conservatives Welcomed at Winnipeg on His Way to Victoria.
Sixteen Thousand Harvesters are Now at Work in the Northwest.
Large Movement of Wheat Will Begin Next Week—Fine Quality.

Winnipeg, Sept. 5.—Mr. R. L. Borden and party were welcomed on their arrival this morning by a large body of local Conservatives. The party did not remain here, but continued on their way to Victoria. Among those at the depot to meet the party were: Senator Bernier, A. G. Lariviere, M. P. for Provencher; Senator Kirchhoff, Hon. Colin H. Campbell, attorney-general of Manitoba; Hon. D. H. McFadden, Dr. Roche, M. P., and N. Boyd, M. P. Senator Bernier, Mr. Lariviere, Dr. Roche, Mr. Boyd, accompanied by Miss Boyd, and Hon. D. H. McFadden go with the party as far as Brandon, where dates will be made for meetings in Manitoba. It is the intention of the local members to tender a banquet to Mr. Borden on his return to Winnipeg. Sir Mackenzie Bowell and Mr. Ward, M. P., bagged 100 ducks in shooting at Lake Winnipegosis, and left for Brandon and Calgary today.
W. M. Macpherson, of Quebec, and James Elliott, of Montreal, are in the city. Both gentlemen are widely known in Canadian business circles, Mr. Macpherson being president of the Montreal Bank, and Mr. Elliott its general manager. They are on a combined business and pleasure trip, and will go through to the Coast on Sunday. On their return to the province at the end of the month they will probably indulge in some prairie chicken shooting.
The Canadian Northern has secured the services of E. A. James, master of transportation on the P. C. at Winnipeg, as operating superintendent.
Some new C. P. R. superintendents are officially announced. C. W. Miles, stone, division superintendent at Moose Jaw, having resigned, D. Bell has been appointed superintendent. T. G. Taylor, train dispatcher at Cranbrook, goes to Brandon, and E. Peard is removed from Brandon to Souris.
Light rain fell around Winnipeg today, but the weather has cleared and harvesting and threshing is progressing. Some 800 harvesters arrived today, bringing the total up to 16,000 out of 20,000 desired. New wheat has been received at Port William and graded No. 1 hard. The movement of wheat will commence next week in earnest. Threshing returns are coming in from all points of the province.

TO INSPECT THE RAILWAYS
Deputy Minister to Pay Visit to West-Manitoba Wheat Crop.

From Our Own Correspondent.
Ottawa, Ont., Sept. 5.—Collingwood Schroeder, deputy minister of railways, leaves here today for a tour of inspection of railway work in Western Canada on which the federal authorities are paying subsidies.
The Department of Public Works has been notified by J. B. Charleson that the Yukon telegraph operators will return to their positions at the reduced rates fixed by the minister.
Dr. Saunders, head of experimental farms, says the Manitoba wheat crop averages 27 bushels to the acre.

HIS BODY FOUND.
William Casneak Drowned in North Arm.
Westminster, Sept. 5.—(Special.)—This afternoon the body of William Casneak, who was drowned in the North Arm a few days ago, was found by the Provincial Police after dragging the channel for two days. Deceased was found quite near the spot where his fishing boat had been blown ashore.
Mary Matos, the revolutionary head nurse of the Royal Columbian hospital, vice Miss Pearson, resigned. The new appointee has had experience in Calgary, Golden and Macleod.
Donald Macleod, the president of Surrey, died at his home in Elgin, aged 80. Deceased mined in Cariboo several years, from '61, then took up a ranch near Mud Bay. He was about to enter the Old Man's Home at Kamloops when stricken.

VENEZUELA TROUBLES.
President Castro Is Still Inactive.
Barcelona, Venezuela, Sept. 5.—A correspondent of the Associated Press visited Gen. Matos, the revolutionary leader, on August 28, at his headquarters at Zaraza, about 100 miles south-east of Barcelona. The General was full of hope. He said he had ordered all his military chiefs to concentrate their forces and march in the direction of Alta Gracia, whence the troops will move later on to Caracas. Consequently General Rivera, Mendoza, Altamira and Sanchez, with about 12,000 men, recently left San Carlos, distant 150 miles from Alta Gracia. But they cannot reach the latter place within a fortnight, and therefore at decisive battle cannot take place for some time. President Castro is still inactive near Ocumere, about 35 miles south of Caracas.

REAL TRAGEDY.
Jilted Actress Shoots Faithless One on the Stage.
London, Sept. 5.—A despatch to the Daily Chronicle from Vienna gives details of the tragic death on Wednesday last of an Austrian actor and actress at Sammer-Vor, Transylvania, Hungary, as follows: Julia Paky and Julius Bardos had been engaged, but the latter had broken off the engagement. The two were acting the part of lovers in a performance during which Julia was supposed to fire at Bardos. She charged her pistol with bullets and shot him dead. The curtain was lowered immediately, but the first persons who arrived on the stage found that Julia had committed suicide by opening her veins.

The Pressmen Are Delighted

Visitors From Old Country Loud In Praise of British Columbia.

And Highly Pleased With Hospitality of Government and People.

From Our Own Correspondent.

Vancouver, B. C., Sept. 5.—The trip provided by the provincial government to the visiting journalists from Great Britain, is being enjoyed by them to have been the most instructive experience of the wealth and resources of Canada they have had since they left Old England's shore. They have never experienced anything like the hospitality of British Columbia in their travels, and one and all are loud in the praises of the country. The provincial government could not show them the whole of British Columbia of course, but it has given them an insight into the vastness and extraordinary wealth of the whole country by showing them a small part of it. The steamer Yosemite, chartered by the government from the C. P. N. company, was at short notice turned into a floating hotel by the energy of Mr. John S. Byron, the purchasing agent of the company, and so far as the internal arrangements of the boat went, there was not a hitch, while the decorations and appointments generally came in for an unstinted word of praise.

STILL SLAVERY DAYS.

Man Sold for a Year by Order of Court.

Shelbyville, Ky., Sept. 5.—Fisher Million, a negro, who was indicted in 1901 for vagrancy, and who has been at large since, has been captured in Lawrenceburg and tried before Judge Davis in the county court. The jury returned a verdict of guilty and fixed his punishment at being sold into servitude for a period of twelve months, the highest penalty. He will be put on the block and sold into servitude by Sheriff Briggs if a purchaser can be found. The officials hardly know what to do in the event of no sale.

LIGHT SENTENCE.

Result of Court Martial on French Officer.

Nantes, France, Sept. 5.—A court martial today sentenced Lt.-Col. St. Remy, who, on August 7, refused to assist in closing the unauthorized schools, to one day's imprisonment. The colonel was tried on two charges, first, refusing to obey an order given by the commanding general, and second, refusing to direct the troops of his command to act on the requisition of the civil authorities. The court martial unanimously acquitted the colonel on the charge of disobeying military orders, but by a vote of six to one found him guilty of refusing to obey a civil requisition, and sentenced him to a day's imprisonment and costs. The verdict was greeted with applause, as it was regarded as being practically an acquittal.

SABBATH OBSERVANCE.

Victoria Presbytery Endorses the Work of Lord's Day Alliance.

At the recent meeting of the Presbytery of Victoria held in this city, the following resolution was adopted: That the Presbytery recognize its obligation to the Divine Authority, lasting obligation, and national, social and religious benefits of the Lord's Day Alliance, and deprecates the frequent and flagrant violations of its sanctity, and expresses its hearty sympathy with the movement to the sympathy and support of all ministers, members and adherents within its bounds.

ANOTHER FIGHT.

Haytian Government Troops Defeated Near Limbe.

Cape Haytien, Hayti, Sept. 5.—The troops of General Alexis Nord, war minister of the provincial government, were defeated yesterday near Limbe, about eight miles north of Port au Prince. The opposing forces were said to have been heavily engaged, General Esmanagard, who actually commanded the government force, was captured by the revolutionaries and a portion of the government army also fell into their hands.

DRUMMING UP TRADE.

United States Merchants Reaching Across the Pacific.

Seattle, Sept. 5.—A large ocean-going steamer, the Oregon, is now being fitted up here for the purpose of taking a party of United States merchants, with exhibits, on a six months' cruise, commencing on November 15, to Russia, China, Japan, the Philippines, the Straits Settlements, India, Mauritius, South Africa, Australia and the Hawaiian Islands. The United States consuls have invariably reported that personal solicitation and samples are absolutely necessary to bring about an expansion of business. In this floating exposition, United States manufacturers will have all classes as buyers, from the coast cities as well as the interior, brought to view the latest up-to-date ideas, as well as native merchants and exporters dealing in solid goods and the finest materials. The exposition is under the auspices of the Chambers of Commerce, Boards of Trade, the Manufacturers' Association and the consulates or the various points visited, and committees will discuss more fully the betterment of trade relations between the United States and other countries.

RE-BUILDING

The Broken-Down Structure

PAINE'S CELERY COMPOUND

Repairs the Diseased Parts of the Human Body and Establishes Health, Comfort and Happiness.

Can we re-build our pain-racked, emaciated and wasted bodies? Yes, the work can be done even though the spark of life glimmers but faintly and feebly. This work of re-building can only be effectually accomplished by the use of Paine's Celery Compound, that marvelous medicine that has saved so many lives in the past.

Begin the good work of health-building today. Take home a bottle of Paine's Celery Compound, use it faithfully, and you will have cause for rejoicing and thanksgiving. Mr. C. B. Holman, 262 King St., West, Hamilton, Ont., happily saved from a complication of serious troubles, writes thus: "Having been troubled with cough, debility and general depression of spirits, I used a number of medicines but received no benefit from them. I was then advised to use Paine's Celery Compound. I procured the preparation and began to use it with great benefit. I am now convinced, after using several bottles of this unequalled medicine, that no other can compare with it in any respect. I am now a changed man; my health is renewed, depression of spirits gone, my appetite is good, and I can sleep well. I always say a good word for Paine's Celery Compound."

E. & J. BURKE'S

OLD IRISH WHISKEY

ne undoubted superiority of Burke's Old Irish Whiskey accounts for the world-wide popularity it has enjoyed for more than half a century.

For Sale by all leading Grocers and Wine Merchants.

Four Thieves Arrested In Vancouver Had Goods Stolen Here.

Silk Skirt Taken From Westside and Silk Coats From Spencer's.

The two men, Williams and Lewis, and the two women, claiming to be the wives of the two men mentioned, who were arrested in Vancouver a few days ago on suspicion of having been implicated in picking pockets at Vancouver and Nanaimo, on Sunday and Monday last, will find, before they get away from British Columbia, that the Canadian police are not so easy as they apparently took them to be. The Vancouver police may not be able to make the charges that they have laid against the quartette stick, but by a vote of six to one found them guilty of refusing to obey a civil requisition, and sentenced him to a day's imprisonment and costs. The verdict was greeted with applause, as it was regarded as being practically an acquittal.

The two men, Williams and Lewis, and the two women, claiming to be the wives of the two men mentioned, who were arrested in Vancouver a few days ago on suspicion of having been implicated in picking pockets at Vancouver and Nanaimo, on Sunday and Monday last, will find, before they get away from British Columbia, that the Canadian police are not so easy as they apparently took them to be. The Vancouver police may not be able to make the charges that they have laid against the quartette stick, but by a vote of six to one found them guilty of refusing to obey a civil requisition, and sentenced him to a day's imprisonment and costs. The verdict was greeted with applause, as it was regarded as being practically an acquittal.

Catarrh

Is a constitutional disease. It originates in a scrofulous condition of the blood and depends on that condition. It often causes headache and dizziness, impaired taste, smell and hearing, affects the vocal organs, disturbs the stomach. It is always radically and permanently cured by the blood-purifying, alterative and tonic action of

Hood's Sarsaparilla

This great medicine has wrought the most wonderful cures of all diseases depending on scrofula or the scrofulous habit.

Hood's Pills are the best cathartics.

Lea & Perrins' WORCESTERSHIRE Sauce.

THE ACME OF SAUCE PERFECTION

truly a strong statement, but it's true nevertheless—every word of it.

LEA & PERRINS' Worcestershire Sauce

has been used by folks fond of fine foods the world over for 60 years. All dishes such as soups, fish, meats, gravy, game, salads, etc., are doubly appetizing and digestible when flavored with this world famous sauce. It is indeed "the only good sauce."

N. B.—Signature of Lea & Perrins' on every bottle.

stealing the Colonist newspaper from
the door of a subscriber.

THE BRITISH EDITORS.

The British newspaper men, by all
accounts, thoroughly enjoyed their brief
visit to Victoria and departed with their
minds stocked with pleasant impressions
of the city and its people. Yesterday,
if the programme set for their
entertainment was carried out in its
entirety, they had an opportunity of
forming a correct estimate
of Victoria's importance as the
supply depot of a district in which
several important industries are already
established, and whose undeveloped re-
sources call for the establishment of
many more. They had not the time to
see very much of our magnificent Is-
land, but what they did see must have
convinced them that its possibilities are
illimitable, only requiring capital, energy
and population to make it in time the
manufacturing rival of their native Is-
land.

The members of the party were keenly
alive to the real object of their visit,
the obtaining by personal observation of
facts regarding the country, its indus-
tries, resources, and social conditions,
and the mass of information which they
gathered during their two days visit
will prove of immense value to Victoria
and Vancouver Island when it is elab-
orated and published in the influential
journals which they represent.

They proved themselves to be the
right sort, jovial, companionable men,
and all who had the pleasure of per-
sonal contact with them will always re-
tain pleasant memories of the visit of the
British journalists. Good luck and long
life to them.

THE ATLANTIC EAST LINE.

While the Atlantic fast line proposal
is only as yet in its initiative stage,
the newspapers of the Atlantic seaboard and
those of Quebec and Montreal are en-
gaged in a fierce controversy as to the
merits of their respective ports as the
Canadian terminus. These appeals to
local interests, while they exhibit the
commendable loyalty of the newspapers
to their spheres of influence, show what
an easy thing it is, by raising a side
issue, to obscure the central idea of a
great national undertaking. When the
tenders for the fast service come to be
considered it will be time enough to fix
the terminals, and all that may be writ-
ten in the meantime in advocacy of this
or that port can have no possible effect
upon the final decision. That will rest
with the contracting parties, the Imper-
ial and Dominion governments and the
contractor whose tender is accepted. The
first and most important point to be
settled in connection with the estab-
lishment of the fast service is the most
expedient transportation of the mails,
to which the passenger and fast freight
arrangements, though essential to the
success of the line, must, in a way, be
subordinated. No doubt the Imperial
postal authorities will have the say in
fixing a time limit between, say, London
and Montreal, and it will be for the
contractors to arrange the detail of a

choice of terminals. Meanwhile the
merry war will no doubt continue to be
waged in the columns of our Eastern
contemporaries, but its loudest blasts
should not, nor will they for a moment
influence the final decision of the high
contracting parties.

STEEL SHIPBUILDING.

The Maritime Board of Trade, which
held its eighth annual meeting at Sydney,
Nova Scotia, recently, adopted a strong
resolution on steel shipbuilding which
was important from the fact that it was
not brought forward as a sectional mat-
ter, but "for the whole of Canada." In
its resolution the Maritime Board went
on record to the effect that the Domini-
on government be asked to grant a
bounty large enough to enable
Canadian builders to compete in this
industry, and have it extended over a
term of years sufficiently long to en-
able the industry to become permanently
established. It was felt that next to the
steel industry itself, steel shipbuilding
is the most important industry Canada
could have.

The idea, if not the earnest words of
the late J. M. Carmichael, of New
Glasgow, on this subject must have been
in the minds of many as the gathering
discussed the resuscitation of shipbuilding
on our Atlantic Coast, says the
Monetary Times in commenting on the
resolution. "A score of shipyards might
exist, fully equipped," declared that gen-
tleman, "along our shores from Cape
North to the Bay of Fundy. But not a
ship can be built, so long as our people
are content to allow even their own
timber to be carried by English and Nor-
wegian vessels. . . . We are a
maritime people, and have not been
afraid in the past to send ships all over
the world. Why do we not take up a
trade that is near at hand and which
our experience as ship-owners enables
us to handle to the best advantage?"
But Mr. Carmichael had more courage
than the Maritime Board of Trade. He
did not preface his recommendations
with a prayer to the government to
please do something for us. What he
said was: "The best way to insure
that they (steel ships) will be made here
is to begin to build ships." Would
that he had lived!

BRITISH COLUMBIA FRUIT.

A very valuable object lesson of British
Columbia's capabilities as a fruit
producer has been given at the Winnipeg
horticultural exhibition, which closed a
few days ago. Mr. R. M. Palmer and
Mr. J. C. Metcalfe, who had charge
of the exhibit, are both practical men,
who seem to have taken full advantage
of the splendid opportunity to set out
British Columbia's claims as a fruit
producer in the best possible manner. As
Mr. Metcalfe said at Winnipeg, speak-
ing for the British Columbia Fruit
Growers' Association: "We feel that
the Northwest Territories and Manitoba
are our natural markets, and we shall
do all in our power to cultivate them."
That statement contains the best pos-
sible advice to the fruit growers of this
province.

The market for fruit in the Territories
and Manitoba is a great and a grow-
ing one, and there is no doubt that
British Columbia with her glorious
climate and fertile soil, has a magnifi-
cent future as a fruit producer.

LIBERAL TRADE POLICIES.

The decision of the German govern-
ment to discriminate against Canadian
wheat, elicits the following comment on
Liberal trade policies in the Winnipeg
Tribune:

Against this new regulation Canada,
of course, has no ground for fresh com-
plaint. When, after the "preference"
was granted to Great Britain, Germany
put Canada on its high tariff list, the
incident was to exclude all our products
from the operation of the more favor-
able terms before prevailing, and the
new regulation only tends to make the
original purpose more effective. But
the incident calls public attention again
to the fact that we are being discrimi-
nated against by Germany. The situation
is most unsatisfactory. Last year
we bought from Germany goods to the
value of \$10,000,000, while Germany
bought from us goods valued only at
\$1,200,000. That is we bought ten times
as much as we were allowed to sell.

Now if Germany is to buy in this
country a market for ten million dol-
lars worth of goods she ought to open
to us a market for more than one mil-
lion dollars worth. The balance of
trade is against us as assured. There is
no reason why it should exist, our
government has shown an utter lack
of firmness and enterprise in looking
after our interests. The "preference"
granted the Mother Country affords no
excuse for allowing Germany to treat
us so unfairly. The difficulty is that
the Liberal government has no policy.
It gave a preference to the Mother
Country. This action has been inter-
preted at different times as a gift
prompted by loyalty and as an induc-
ement to the granting of a preference
in return for which policy does the
Liberal government intend to stand? In
France the other day, Sir Wilfrid said
there was no sentiment in trade and
that the principle he was advocating
was the direct contrary of one of his
explanations of his British preference.
And by his actions he has shown that
he is not in earnest in his efforts to
secure a preference from Britain which
disposes of his other explanation. Where
does he stand, anyway? No one knows.
This country is without a policy that
can make it a power and we are at the
mercy of any unfair regulations imposed
by other nations. What Sir Wilfrid
will do in France we must wait to see. Some-
thing certainly needs to be done. Last
year we imported from France goods
valued at \$6,015,383, while we exported
to France goods valued at only \$1,300,-
798. This condition of trade is not quite
so bad as in the case of Germany, but
it is in bad need of some remedy. On
what principle is Sir Wilfrid going to
remedy it? Whatever he does he will
display inconsistency with some former-
ly avowed principle. What that princi-
ple is, we need not say. What that princi-
ple needs now is a government that has
a policy and can carry it out with firm-
ness and consistency. As it is every-
thing in confusion and we are suf-
fering from unfair trade conditions.

In consequence of the coal strike New
York is importing Welsh anthracite.
Coals to New Castle reversed.

The only drawback to the harvesting
of Manitoba's great wheat crop is the
want of harvest hands. Between 15,000
and 20,000 were imported from the East,
but even this army of men is insuffi-
cient to handle the crop.

The United States battleship Maine,
recently launched with much ceremony
and proclaimed by the press of the Re-
public to be the "greatest fighting ma-
chine in the world," is now found to be
defective in construction, many of her
plates showing serious splits. Another
example of \$ loyalty.

CHURCH'S ALABASTINE

Is a wall coating made from alabaster rock.
Is not a kalsomine, but a cement that hardens
with age.
Is made in twenty beautiful tints and white.
Anyone can brush it on—no one can rub it off.
Ask any Hardware or Paint Dealer for this card.
ALABASTINE is never sold in bulk.
Write for book of instructions, sent free, and learn
how to "Make Home Beautiful."
Painters, send for our offer, "Two Good Things."

Play Ball

For Charity

Match At Oak Bay Ground To-day Between Victorians and Amities.

Intermediate Lacrosse Match at the Caledonia Grounds—Other Sports.

The game between the Amity and Victoria baseball nines this afternoon will be hotly contested, as both teams are keen on scoring a win. Baseball patrons recall with pleasure the fine games played a couple of seasons back between the above teams, but the Amities in those days had Ribbet, Schwengers and Haynes, and their presence on a team is a factor to be reckoned with. In today's game much interest will be taken in the playing of Rogers and Gogger, as both are promising men and may figure prominently in future contests. The great feature of the game, though, will be the appearance on the diamond of Napier Gowen, who will captain the Amities. It is fully a decade since Mr. Gowen has played ball, but the old-timers who remember his work are firm in the belief that Victoria has never produced a short stop who could eclipse "Nippy." Not even the redoubtable McConnell, who is speedy enough for the best going. To take up "Nippy's" record, one is obliged to search among country clubs for his contemporaries. Richard Hall, M.P.P., Aid. Cameron, Charles Todd and the brilliant Eddie Nagle, who was one of the star players of the famous San Francisco baseball team, are in the line-up. The Amity in-field, composed of Scott, Widdowson, Wriglesworth and Gowen, is a very respectable defence line, and they should be capable of handling anything coming their way. Schwengers is expected to play another position, and his athletic prowess and adaptability to any place establishes beyond doubt that he will fill the bill. Many eyes will be centred on Harry Wille, in the last garden, and who betide any lurking would-be home runs in that territory, for he has been known to reach up and gather them out of the clouds. Harry is so frisky these days that he even threatens to go into the box and destroy any lingering hopes the Amities may have of winning.

C. A. Holland, Esq., president of the Royal Jubilee hospital, and a baseball pitcher extends from Atlantic to Pacific, he can be depended upon to cut the plate, provided he has his customary control. The game is under the joint patronage of the directors and ladies' auxiliary of the Royal Jubilee hospital, and the ladies are especially desirous that there should be a good attendance from all the latest race-tracks. The City band will play during the game, and the catchy music contributed by them will certainly be a much appreciated attraction, as the band has a fine repertoire of the latest rag-tunes. The ambulance will also be on hand to remove whatever is left of the Amities after the game, and there is even talk of assigning a ward for them in the hospital, where they will be allowed to recuperate.

Mr. T. W. Edward, the well known old umpire, is to handle the indicator. The following are the teams as they will line up in batting order.

VICTORIA. AMITY.
McConnell, s. s. Gowen, G. s. 1. f.
Schwengers, 1b. Huxtable, c.
Smith, c. (Capt.) Wriglesworth, b.
Scott, 1b. Rogers, 2b.
Haynes, p. Gowen, N. s. s.
Pattis, c. Widdowson, 2b.
Gogger, 1. f. Rogers, c. f.
Harrison, 3b. Lenfesty, Schultz, 1. f.
Wille, r. f. G. Smith, p.

JUNIOR BASEBALL.
South Park and North Ward Schools at Beacon Hill This Morning.

There will be a junior baseball match at Beacon Hill this morning between the North Ward and South Park school teams, in the series for the Colonist cup. The match will commence at 10 o'clock. The teams are:

North Ward—Everett Taylor, 3b; Walter Craig, 2b; Cecil Hall, 1b; Ed. Harris, s.s.; Percy Smith, c.; Jos. Burgess, 1. f.; George P. Alex. Innes, c. f.; Jos. Devlin, r. f.; substitutes, B. Hall.
South Park—Pitchers, Lang and Edmonds; 2nd base, Bamford; 3rd base, Edmonds and Lang; short stop, Jamieson; right field, Holland; centre field, Anderson; left field, Kennedy; reserves, Briggs, Johnson and Rome.

THE TURF.
Stalls at Driving Park Past Filling Up For Fall Races.

Every day now Secretary Boggs is receiving applications for stalls at the Victoria Driving park from owners of horses which will be entered for the fall race season. Next month, four more stalls were reserved, and if the present race continues, there will be no fear of the races not filling. It is understood that some of the horses from J. Taylor's stock farm at North Saanich will take part in the running races. There is every indication of a most successful meet.

KAMLOOPS TROUT.
Fine Specimens on Exhibition at New England Restaurant.

The window of the New England restaurant contains a display of trout which is a delight to the eye of the angler, and a temptation to the palate of the most fastidious epicure. The fish are rainbow and silver trout and mummets, and are a portion of a 40-pound catch made recently in Kamloops lake near Saanich, by Messrs. T. Alice and B. J. Perry.

INTERMEDIATE LACROSSE.
Victoria West and James Bay Teams at Caledonia Grounds.

There will be an intermediate lacrosse match at the Caledonia grounds this afternoon, commencing at 3 o'clock, between the Victoria West and James Bay teams. The Victoria West team is composed of: Goal, A. Stevens; point, T. Crocker; cover point, H. Jacobson; first defence, C. Fairall; second defence, C. Taylor; third defence, W. Battersby; centre, F. Baker; third home, B. Dodd.

The Boys will be chosen from the following players: Simpson, Whitelaw, Proctor, C. Pike, H. Pike, Finlayson, Donaldson, Langton, Lang, A. and T. Sargison, N. Scott, Gawley and Cogswell.

CRICKET.
Victoria First and Second Elevens Have Engagements This Afternoon.

Both the first and second elevens of the Victoria Cricket Club have games on for this afternoon, the first eleven playing the Navy at the Canteen grounds at 2 o'clock, and the second eleven playing the Royal Engineers at the Garrison grounds at the same hour.

The teams are:
First Eleven—W. H. Binn, E. J. Herne, D. Barracough, H. J. Martin, J. Macer, W. Macer, W. Hanson, L. S. A. York, W. York, K. Gregson and W. P. Gooch; substitute, R. Swinerton.
Second Eleven—L. B. Trimen, B. H. Hurst, C. B. Deaville, B. B. Bogle, H. B. W. Ashby, R. G. Monteith, W. H. H. P. W. Ashby, W. T. Williams, J. Anderson and P. Richardson.

SHOOTING AT OTTAWA.
More Prizes Won by British Columbia Men.

Ottawa, Sept. 5.—(Special)—The D. R. A. matches were concluded today under favorable conditions of wind and weather, although it was a little chilly.

In the Borden match at 500 yards, the team prize was won by the Sixth Regiment of British Columbia, with 183; Kirkpatrick cup was won by the British Columbia Garrison Artillery team with 947, 43rd Ottawa General, 922.

Final stages of Governor-General's match—200, 500 and 600 yards; medal and \$200; Sgt. Freeborn, 13th Hamilton, 184 points; \$150, Comd. Oumundson, British team, 183; \$100, Sgt. Scott, British team, 182; \$20, Comd. G. C. Mortimer, 4th Regiment, British Columbia, 176; \$5, Sgt. Cunningham, 6th Regiment, British Columbia, 167.
"London Merchants" cup and \$60—Ontario R. A., 653; \$40, B. C. R. A., 629.
The Governor-General's Foot Guards won the Gzowski cup and British Challenge Shield. Mortimer was fifth in the running man watch, winning \$6.

SPORTING NOTES.

In the Mulock match, the aggregate scores made in the Duke of Cornwall, Canadian Club, Macdonald, Osler, City of Toronto and Park-Brunswick matches at the Ontario Rifle Association's meeting; while the prizes are open to all the militia of Canada, the cup, medals and badges are restricted to the militia of Ontario only, and this condition resulted in barring Sgt. Major Richardson out of Elkhington cup, N. R. A. silver medal and badge, and he received only \$15. The trophies went to Sgt. W. Swaine, with 307 points, who won \$10.

This afternoon at 3 o'clock Mr. Carr-Hilton will meet Mr. H. A. Holmes in the finals of the gentlemen's singles of the James Bay tennis tournament.
A number of Victorians went over to Vancouver this morning to take part in the Athletic events to take place at Brockton Point today. Among them are: C. Klein, H. Gowen, P. Mellor, E. Whyte and J. Blain.

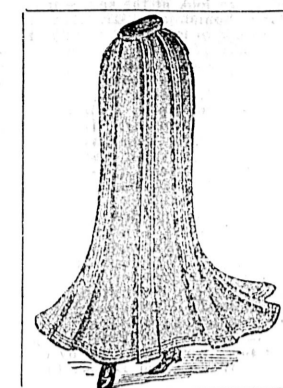

The Best.—Mr. T. G. Earl, the fruit grower of Lytton, who is in the city, speaking of some apples grown in the orchard of Mr. Grant at Gordon Head, says they are the best grown in the province as far as he has seen. The apples find a ready sale.

To Preach Here.—Rev. Newton R. Powell, pastor of Haliburton Street Methodist church, Nanaimo, will preach Sunday, morning and evening, in the Metropolitan church.

Your step has lost elasticity because your blood has lost vitality, which Hood's Sarsaparilla will restore.

HATTERS.

64 Government Street

According to the Nanaimo Herald Mr. Ralph Smith after the divorce vote against him was asked if he still intended to go to the Trades and Labor Congress? He said certainly; his duty was plain and he would attend the congress as he was president, even if he had to do it at his own expense, though he could not again stand for office. Several of the Vancouver unions had offered him credentials, but he had no idea of going out of his way to take credentials from another union when his own had declined to grant them. Mr. Smith will leave for the East on Tuesday of next week.

SMITH WILL GO.

Says He Will Attend Trades and Labor Congress.

The new cars will contain all the latest improvements in regard to machinery and equipment. They will be 22 feet in length, of the standard width and will have seats facing forward instead of lengthwise, which will allow the passengers to look out of the windows instead of at each other. All the new cars will contain an arrangement of lighting that will be a considerable improvement on the illumination of the present cars. The balance of the open cars will be finished by next spring and placed in commission in time for the summer traffic.

Mineral Wealth of Ontario

Annual Report of Director of Mines Furnishes Interesting Particulars.

Increase in Value of Production Exceeded \$2,000,000 in 1901.

The Ontario Department of Crown lands has issued the annual report of Mr. Thomas W. Gibson, director of mines, for 1901. It is a comprehensive document, including, in addition to elaborate statistics dealing with every branch of the subject, valuable information concerning the explorations and investigations made by the officials of the bureau and others to ascertain the extent and value of Ontario's mineral resources. The production of minerals during the year reached a total value of \$11,831,086, as compared with \$8,289,204 in 1900, and \$7,235,577 in 1898. The most noteworthy feature is the increase in the metallic output, which was \$5,016,734 last year, as against \$2,665,286 in 1900, and \$1,689,002 in 1898. The metallic products formed 42 per cent. of the total last year, as compared with 28 per cent. in 1900. The great increases were in copper-nickel and pig-iron; gold and silver, which are now relatively small factors, showed a falling off.

First and foremost in importance is the nickel-copper industry, which is advancing by leaps and bounds. The output of nickel ore for the year was \$8,820,000 pounds, or 4,410 tons, worth in the market, \$1,859,970. The output has increased 25 per cent. in quantity and 145 per cent. in value over that of 1900. The value of the copper contents of the matte, amounting to 4,197 tons, was \$589,080, as compared with 3,364 tons, worth \$381,681 in 1900. In 1897 the yield of nickel was valued at \$359,651, and that of copper to \$200,067. In that year the number of tons raised was 93,155, and the number smelted 96,003, while last year the number of tons raised was 220,945, and 270,380 smelted. Later returns covering the first three months of the present year, show the industry continues to advance. There was a gain of \$354,480 in nickel and \$121,545 in copper over the corresponding period of 1901, due largely to the marked improvement effected in the process of smelting.

The quantity of iron ore produced in 1901 was over three times the output of 1900, largely owing to the extensive developments of the Helen mines, which forms the principal source of supply. The yield was 273,538 tons, worth \$174,428, as compared with the previous year's output of 90,302 tons, valued at \$111,805. Pig-iron also showed an extensive increase, due mainly to the operation of an additional furnace. The yield was 116,370 tons, of the value of \$1,701,708, an increase over 1900 of 53,954 tons and \$705,637 in value over the product of 1900. While in that year only 23 per cent. of the ore made into pig-iron was the product of Ontario mines, the percentage of native ore had risen in 1901 to 57 per cent. The growth of the steel industry is one of the most noteworthy features of the year. Its output was 14,471 tons, valued at \$247,280, while the year previous it was only 2,819 tons, worth \$46,380. Iron and steel making employed 550 hands, the wages paid amounting in the aggregate to \$274,554. Bounties amounting to \$25,000 were paid by the provincial government for the encouragement of the industry.

Zinc production has not yet attained any considerable output. There is only one mine in operation, the output of ore from which was 1,500 tons, of the value of \$15,000.

There were only nine gold mines contributing to the output of 1901, which amounted to 14,203 ounces, valued at \$244,443. In 1900, 18,767 ounces were produced, worth \$207,861. The later returns for the first three months of 1902 are of more encouraging nature, as the gold output showed an increase in value amounting to \$22,548, as compared with the corresponding period of 1901.

The silver product was 151,400 ounces, valued at \$84,830, as compared with 160,162 ounces, valued at \$96,376 in 1900. There was a gain amounting to \$4,054 in the yield of the first three months of the present year.

The returns of non-metallic products show fewer noteworthy changes than the record of metallic production. Petroleum products have fallen off in value, \$1,869,045, to \$1,467,040, but this decline is compensated by increases in most of the other items, bringing the total slightly in advance of the production for 1900. Iron pyrites, the value of which, according to the schedule, with an output amounting to \$17,500, and the value of corundum produced has risen from \$6,000 to \$35,115.

CAMPBELL CREEK PLACERS.
Company Formed to Make a Test of Their Values.

New Westminster, Sept. 5.—(Special.)—Investment has been made in placer gold mining along Campbell creek, Surrey, not far from the International boundary. Some years ago a company sank a shaft to bed rock in the old channel of the Fraser, and there was found good prospects, but were driven out by water. Now a new syndicate is organized to determine if the scheme is worth taking up. It is expected the old shaft will be pumped out by Tuesday. A few cokes to the pan have already been got at the surface.

STRAIN AND ANXIETY TOO MUCH FOR HER.

Health Broke Down, Was Pale and Exhausted—Restoration Came With the Use of

Dr. Chase's Nerve Food

The case described in this letter is similar to thousands in which Dr. Chase's Nerve Food has successfully been used. It is one more example of the marvelous upbuilding effect of this great food cure.

Mrs. Geo. Campbell, Upper Harbor, St. John County, N. B., writes: "Last summer my system was completely run down, and I was pale, weak and exhausted. I had taken care of a sick friend for four months, and lost sleep, as well as the strain and anxiety, was too much for me. When I would lie down or sit down the nerves in my legs would twitch, and I felt strange sensations in the joints.

"When in this condition I heard of Dr. Chase's Nerve Food and began to use it. It seemed to help me from the very first, and gradually restored me to health and strength. Today I feel as well as I ever did, and give the credit to this great prescription of Dr. Chase's Nerve Food. A dozen boxes, 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmanston, Bates & Co., Toronto.

WEALTH OF THE ISLAND.

Manager of Tacoma Steel Company's Enthusiastic Views.

Mr. Hayward, manager of the Tacoma Steel Co., has recently been expressing himself as strongly of opinion that Vancouver Island holds more values to the square mile than any other ground of its size in the province. On the island are iron, coal, copper and gold, and any amount of marble.

He had recommended Mr. Hewitt (his principal) to look at the spruce limits on Quatsino Sound, and Mr. Hewitt had seen enough to make him want to investigate further. Cruisers were now on the limits, but it would be another month before they could cover the ground, as it was a big proposition. When they did report, he believed they would report favorably. If the report was favorable the limits would be purchased and a pulp mill erected at once.

He was at present developing iron properties on the island, which also promised well. Although very little work had been done on British Columbia's magnetite deposits, he was of the opinion that there was enough iron for every body who wanted to go into the iron business for the next few hundred years, and it had been demonstrated that as regards quality it made the best manufactured iron, as good as any ever produced in the world. This was proven by the sheet iron turned out by the Union Iron Works from British Columbia ore.

He thought red hematite was exceedingly scarce. He had as yet heard of no red iron deposits within easy reach of salt water that were worth investigating. Either silica or red iron would have to be mixed with magnetite to render the magnetite iron sufficiently malleable, but this red iron could not be handled if it was more than two miles from the coast, and contained less than 40 or 50 per cent. of iron. They had had a property procured to them away in the interior, running 60 per cent. iron, a magnificent proposition, but railway and other expenses of getting it out rendered the proposition impossible. His company, however, had located hematite on Puget Sound suitable for their purpose, and they were relieved from all anxiety on that score.—Cronin Gazette.

VALUE OF LE ROI ORES.

Statement Made by Mr. Sontag As to Their Low Grade Denied.

The Rossland Review denies the statement made by Oscar Sontag, in the low grade of the Le Roi mine ore, and which was reproduced in the columns of the Colonist recently, the Miner says:

The Miner reproduces herewith a statement of the ore shipped to the average assay values contained therein from the Le Roi mine in the past eight months. The figures are of special interest to the public as the returns for the past month or so have not yet made their appearance even in the London papers. The table is as follows:

Month.	Tonnage.	Per Ton.
December, 1901	10,400	\$14.40
January, 1902	10,400	10.74
February, 1902	18,794	10.72
March, 1902	22,424	11.46
April, 1902	25,503	10.25
May, 1902	13,047	15.86
June, 1902	11,476	17.70
July, 1902	14,492	17.70

These figures are reproduced in continuation of the statement alleged to emanate from Oscar Sontag, late metallurgist of the Le Roi smelter at Port Arthur, to the effect that the profits of the Le Roi company has made during recent months were not produced as a result of the shipment of a better grade of ore than that shipped in the past. The statement is a complete misstatement, as the company has succeeded in effecting at the plant. As a contrary condition of affairs had been shown to exist when the company approached the Great Northern railway with its application for more favorable freight and coke rates and the Stevens county officials in negotiations for reductions in taxation in the tax rate on the smelting plant, Mr. Sontag's rate of output was pronounced to be the position of having deceived the interests mentioned. That such was not the case is well known in Rossland, and is demonstrated by the following figures. It has been established by the reports which have been published by the London financial papers that the higher values were only secured after production had been curtailed and the mining and sorting of ore conducted along lines calculated to produce only ore carrying comparatively high values. It is important to the city of Rossland that the freight and coke reductions should be secured by the Le Roi company, inasmuch as these concessions by the railroad people will mean them an assurance of largely increased output from the mine and consequent increases in the payroll, with the stimulus on business locally always attendant upon large wage rolls.

The figures adduced will be received as ample refutation of the statement credited to the ex-metallurgist at the Northport smelter as to the value of Le Roi ore not having increased in recent months.

IRON BOUNTIES.

Discussing the effect of bounties on the development of the iron industry in Ontario, the Ottawa Citizen says: The effect of bounties in developing the iron trade of Ontario is clearly indicated in the report of the Bureau of Mines. In 1896 the Ontario output of pig iron under bounty conditions was 4,000 tons on which a dollar a ton bounty was paid. In 1897 the output decreased, but in 1898 it advanced to 8,647 tons, in 1899 it was 12,752 tons and last year it reached 55,214 tons though the bonus was reduced to \$0.472 per ton. The iron mining fund, if not sooner exhausted, will expire on January 1, 1906, the amount appropriated having been \$125,000. Of this \$59,741 has been paid out.

The production of iron ore in 1901 was more than three times that of the previous year, 273,538 tons being raised and shipped as against 90,302 tons in 1900. The value of the ore was returned as \$174,428, as compared with \$111,805 for the preceding 12 months. Eight mines in Eastern Ontario produced about one-twentieth of the whole, but by far the larger proportion of the ore was the product of the Helen mine in the Michipicoten mining division, which worked steadily during the year. The shipments from the Helen were to the following points: Midland, Ont., 11,574 tons; Hamilton, Ont., 66,330 tons; Ashland, Ohio, 18,213 tons; Chicago, Ill., 65,012 tons; Cleveland, Ohio, 17,026 tons; total, 258,755 tons.

The working force of miners was 350. Wages paid rose from \$107,583 in 1900 to \$229,430 in 1901. It will thus be seen that while the expenditure in bounties was \$25,000 last year, the value of the ore product had reached \$174,428 and the wages paid out amounted to \$231,030. The disparity between the value of the ore mined and the wages paid is explained by the fact that a great deal of work was put in last year in opening up new deposits which will now be available and increase the product proportionately this year.

There are 1,000 men, says the Paymaster, working in the Slocan and Slocan mining division now. This means a payroll of \$3,000 a day, or \$90,000 a month.

A LITTLE MISUNDERSTANDING.

Young Mother—What will you charge for a photograph of our little boy?

Photographer—Three dollars, madam, but it will be considerably cheaper for a dozen.

Young Mother—A dozen! Oh, no, we can't wait so long.—September L'opinion.

The action of Carter's Little Liver Pills is pleasant, mild and natural. They gently stimulate the liver, and regulate the bowels, but do not purge. They are sure to please. Try them.

Ore Shipment From Boundary

Snowshoe and B.C. Once More on List of Shipping Mines.

Le Roi's Shipments and Profits for Months of July and August.

Phoenix, Sept. 5.—(Special.)—Boundary ore shipments are once more gaining back to something like the old figures prevailing before the coke shortage affected all the local smelters. The total for this week is nearly double that of last week. The Snowshoe and B. C. Mines once more rejoined the list of shippers.

In detail the ore tonnage for the week is as follows:
Granby mines, 4,078 tons.
Mother Lode, 2,176 tons.
Snowshoe, 480 tons.
B. C. Mines, 300 tons.
Emma mine, 130 tons.
Total for the week, 80,640 tons.
Total for year to date, 306,471 tons.
This week the Granby smelter treated 5,022 tons, making a total for the year to date of 200,189 tons.

REPORT FROM LE ROI.

Rossland, B. C., Sept. 5.—The report of the operations of Le Roi mine for August, forwarded by Mr. John H. MacKenzie to the London directors, states that the shipment of ore for the month of August were 56,000 tons, second class ore, 1,600 tons. The profits are placed at \$75,000.

July shipments from Le Roi aggregated 16,177 tons, and the estimated profits for that month were an even hundred thousand dollars.

MIXING NOTES.

Several claims have been staked recently on the Koksilah river, some of which are said to be of good promise.

Of these claims, the one owned by Messrs. R. McLean and C. Ryan shows the largest body of ore which is rich in copper and carries gold and silver as well. Their claim is about seven miles west of the B. C. N. railway line. Although many claims have been located along the river very little work has been done on any of them.

Two prospectors who came into Duncan early in the week reported a valuable find of copper ore on Cowichan lake. They showed some fine samples and after procuring supplies returned to their claims to make further developments.

A gentleman who came down from Westholme reports that a trial run of 13 buckets of ore was made over the Tyee tramway in the company last. The machinery worked very smoothly and regular shipments will begin soon, probably on next Monday.

The Princess Royal mine, Princess Royal Island, will make regular shipments of ore to Crofton instead of Tacoma. The first of these shipments, 588 sacks, was brought down by the steamer Tees.

The Copper Mountain Mining & Development company, a Tacoma flotation with a capital of \$2,000,000 in shares of \$100 each, has been formed to take over the June group of four claims situated just across the southeast arm of the Sound immediately opposite Comstock mountain, on which are situated the shipping properties of the Yreka Copper company.

A still further improvement in the average value of the big shoot of ore now being opened up on the 300 foot level of the Stewindier mine by the New Pacific corporation is reported. It is stated that the ore now runs \$11 per ton in gold, and that this higher value appears to give promise of continuing as depth is made.

AUCTIONEER

Special Prizes For Exhibition

Long List of Specials to Be Competed For at Coming Fair.

Three Silver Cups Are Offered For Competition in Sports.

As will be seen by the annexed list, the British Columbia Agricultural and Industrial Association has been very liberally treated by the local and other merchants in the matter of special prizes for the coming exhibition. Besides the list published below several very handsome prizes have been received for the sports. These include a solid silver cup from Messrs. Moet & Chandon, the wine manufacturers, to be competed for by members of the Victoria Hunt Club. The cup is said to be the handsomest that has ever been put up for competition in this province. Another solid silver cup is offered by Messrs. Brown & Co., manufacturers of Four Crown Whisky, for a team trap shoot, and still another by the manufacturers of Player's tobacco, for a tug-of-war between the army and navy. The following list is the first complete one published.

- SPECIAL PRIZE LIST.**
1001. Presented by Victoria Truck & Dray company, for the best ton of 1902, sired by "Newman," \$20.
 1002. For the best ton of 1902, sired by "Newman," \$20.
 1003. Presented by G. Simon, Esq., for the best French coach stallion, "Napoleon," 1st, \$10; 2nd, \$5.
 1004. Presented by S. M. Robbins, Esq., J. P., Nanaimo, for the best pair of carriage horses, 1st, \$15; 2nd, \$10.
 1005. Presented by H. D. Helmeck, Esq., C. M. P., for the best draft horse (geldling), silver cup.
 1006. Presented by L. Goodacre, Esq., for the best pony, silver cup.
 1007. Presented by C. E. Redfern, Esq., for the best saddle horse, 1st, \$10; 2nd, \$5.
 1008. Presented by F. R. Pemberton, Esq., for the best gentleman's saddle horse, 1st, prize winner, sec. 24, \$10.
 1009. Presented by Messrs. M. & H. A. Fox, for the best gentleman's saddle horse, 1st, prize winner, sec. 24, silver spirit flask.
 1010. Presented by the Canadian Bank of Commerce, for the best draft colt (geldling) raised in the province, silver medal.
 1011. Presented by the B. C. Saddlery company, for the best driving horse, goods to the value of \$10.
 1012. Presented by D. Spencer, Esq., for the best roadster, carriage run, value \$10.
 1013. Presented by C. A. Holland, Esq., best roadster, \$10.
 1014. Presented by R. Hamilton, Esq., for the best draft horse, silver medal.
 1015. Presented by A. Henderson, Esq., for the best trotter (private), \$10.
 1016. Presented by Messrs. Turner, Beeton & Co., for the best farm general purpose team, \$10.

- CATTLE.**
1017. Presented by the Cannerymen's & Live Stock Association of B. C., by W. Paisley, Chilliwack, secretary, for the best registered bull, any breed, \$25.
 1018. Presented by J. Dalrymple & Co., Live Stock Association of B. C., for the best registered cow, any breed, \$25.

Movements of Sailing Ships

Alonby Arrives From Melbourne and Celtic Chief From London.

Cable Steamer Has Arrived at Yokohama on Her Way to Victoria.

There was something doing among the sailing fleet yesterday, there being two arrivals from Melbourne, the Alonby, and the Celtic Chief, which has come all the way from Melbourne, Australia, in ballast, sailing for Victoria on her way to the Roads. She made the trip in 83 days, and her master says it was a very monotonous voyage, devoid of incident. Outside she passed two ships bound for the Roads, the Celtic Chief, which is possible that the Alonby will load lumber at Hastings mills, although this has not yet been decided. The other arrival was the British ship Celtic Chief, Capt. Jones from Liverpool, with naval stores and general cargo, consigned to Evans, Coleman & Evans. She was reported in the Straits yesterday afternoon, and the Lorne, which brought the Ellen A. Reed from Hastings mills last night was sent out to arrange for the Celtic Chief was reported passing the Race late last night, and will be safely at anchor in Esquimalt before daylight. The ship is expected to make the voyage. The Ellen A. Reed, which the Lorne brought from the Hastings mills, is here for a crew. She has a full load of lumber. Her sister ship, the Celtic Chief, has loaded lumber at Chemainus, will pass out to sea to-day. Her cargo is for South Africa. The Alice A. Leigh is still at Esquimalt and her owner, Mr. Joyce, is daily expected from London to arrange for the repairs to the vessel, she having been damaged in a typhoon off the China coast. Another ship at Esquimalt will be in the hands of the carpenters in a few days. The Canadian Hills, now discharging Cardiff coal at the dock yard, is to take home, besides salmon, a lot of condemned naval stores, and for this purpose a tugboat will be built in her hold. The work will commence as soon as the coal cargo is out. When the work is completed and the stores loaded the ship will go to the Fraser river to take on her salmon cargo.

CABLE STEAMER.

Colonia Arrived at Yokohama on August 28, on Her Way Here.

Vancouver, B. C., Sept. 5.—The cable steamer Colonia arrived at Yokohama on the 28th of August, and if she sails direct will report in Victoria about September 15. Entomological gallery delay here, however, until about the 20th. Mr. Lucas, chief engineer of the cable construction, will arrive on Sunday, accompanied by Messrs. Jones and Turner, who, who the cable. The two gangs of men constructing the land wire from Nanaimo to Bamfield creek, will meet near Alberni, and thus complete the land lines between the 15th and 20th.

WORK AT ESQUIMALT.

Fifty Men Getting H. M. S. Amphion Into Shape Again—New Steamer.

These are busy times at Esquimalt. A gang of 50 boatmen are at work on the H. M. S. Amphion, on H. M. S. Amphion, the contract for repairing which they secured. The torn plates have been removed and the new ones are being put in place. With the aid of compressed air and other modern methods for ship building, the work is getting along nicely. Other work is also being done to the ship while she is in dock by the Marine railway yard. The Esquimalt Marine railway yard is also a busy looking place. There is a large gang of men at work, some putting together the frame for the C. P. N. company's new steamers at work, and others at work on the pairs of the large J. C. Potter. The Potter is being recaulked and resheathed. In prospect is a contract for repairs to the ship Alice A. Leigh, which is lying in the harbor awaiting the arrival of her owner, Mr. Joyce.

MARINE NOTES.

The announcement published in these columns two days ago of the safe arrival at Honolulu from Australia of the bark Honolulu, after a long passage, has been met with much interest. Captain Stockley being well known in the city as a dispatch boat during the absence of the tugboat at Comox, arrived at Esquimalt yesterday afternoon. The British ship Lamorna is on the berth at Glasgow for British Columbia ports. She is consigned to Messrs. Evans, Coleman & Evans.

VICTORIA TIDES.

For the Month of September, 1902.

(Issued by the Hydrographic Branch of the Department of Marine and Fisheries, Ottawa.)

The time used is Pacific standard for the 129 meridian west of Greenwich, or 24 hours, from midnight to midnight. The height is in feet and tenths of a foot.

VICTORIAN AMONG KILLED

James Crook of this City Was Engineer of Southern Ry. Train.

James Crook, son of Mrs. Crook, post-mistress at Victoria West, was the engineer of the excursion train on the Southern railway, which was wrecked a few miles out of Birmingham, Alabama, on Monday last, and according to a telegram received by his mother on Thursday he lost his life. A press despatch received on Tuesday told of the accident but no names were given, although it was stated that the engineer lost his life. The Seattle papers, however, gave his name and a wire being sent to Birmingham confirmation was received of his death. He was the only white man on the train, which was composed of the engine and six coaches, the coaches being crowded with negroes on their way to Birmingham to spend the holiday. The engine was running at top speed to make up time, when it left the track and the six coaches piled on top of it. Besides Crook, 25 negroes were killed. The deceased was a native son of Victoria, and besides his mother several sisters reside in Victoria. He first took to railroading on the E. & N. railway, for a number of years, was fireman on the passenger train. He left about three years ago, and after working for a time at the Esquimalt Marine railway went to Alabama, where he secured a position as engineer on the Southern railway. He was about 28 years of age.

ENLARGING THEIR FACTORY.

Brass Bedstead Manufacturers About to Incorporate as Joint Stock Company.

Messrs. Taylor & Huggart, who about a year ago commenced the manufacture of brass bedsteads at the premises on Yates street, between Blanchard and Quadra, now find that they are compelled by the steady growth of business to enlarge and extend their plant. With their present facilities they find that it is impossible to keep up with the demand for their wares. They have therefore decided to secure more capital, and to this end are now about to incorporate as a joint stock company, with a capital of \$10,000. Already about a quarter of this amount has been subscribed by leading Victoria merchants, who appreciate the value of encouraging here as many factories as possible, and who also recognize the field there is for this particular one here.

WILD ATTRACT SETTLERS.

Mr. Palmer Writes of Fruit Display at Winnipeg.

Mr. Thos. Cunningham, provincial fruit inspector, has received a letter from Mr. R. M. Palmer dated August 29, in reference to the display of British Columbia fruit at the Winnipeg exhibition. "You will be pleased to hear that the exhibit has created a wonderful impression upon both dealers and consumers of fruit, and is the best advertisement for British Columbia ever made in this part of Canada. We have been requested and urged to forward on the exhibit to Toronto, but could not entertain the proposition, as much of the fruit, being in early season, would not have been in a fit condition for show purposes after making the trip to Toronto. Our success will in a measure repay you for your efforts in collecting and exhibiting the fruit. The holy, ivy, etc., arrived in splendid condition and helped greatly in making the display. We are besieged with applications for little pieces of both. The exhibit has created a wonderful impression upon both dealers and consumers of fruit, and is the best advertisement for British Columbia ever made in this part of Canada. The exhibit has created a wonderful impression upon both dealers and consumers of fruit, and is the best advertisement for British Columbia ever made in this part of Canada. We have been requested and urged to forward on the exhibit to Toronto, but could not entertain the proposition, as much of the fruit, being in early season, would not have been in a fit condition for show purposes after making the trip to Toronto. Our success will in a measure repay you for your efforts in collecting and exhibiting the fruit. The holy, ivy, etc., arrived in splendid condition and helped greatly in making the display. We are besieged with applications for little pieces of both. The exhibit has created a wonderful impression upon both dealers and consumers of fruit, and is the best advertisement for British Columbia ever made in this part of Canada.
